I am a passionate and results-driven Mobile Application Developer with over eight years of experience. Throughout my career, I have had the privilege of working on diverse projects that have honed my skills and deepened my love for Mobile Application Development. I am now seeking new challenges and opportunities that will allow me to expand my horizons further and make a meaningful contribution to innovative teams.

SUMMARY

- 8+ years of experience in mobile application development (iOS, Swift / Objective-C, React Native).
- Proficient in Xcode IDE, iPhone SDK, Git/GitHub, Cocoapods, Visual Code, and Third-Party library integrations.
- Excellent in user interface design, comprehensive testing, debugging processes, and problem-solving.
- A strong foundation in object-oriented programming, clean code principles, and system design skills.
- Experienced with each phase of the Software Development Lifecycle, Agile Development processes, and Git version control.
- Good at requirement understanding and client communication.
- Adept at code review procedures and experienced in Git branch management.
- Proficient in hybrid mobile app development.
- Excellent critical thinking, problem-solving, and debugging skills.
- Experienced with building high-quality, scalable, reusable, and testable code.
- Experienced with APNS, memory management, offline storage, threading, etc..
- Firm background in object-oriented programming, clean code, and system designing skills.
